Know your speed limits?

All the roads in Lincolnshire are signed in accordance with the Highway Code. If you are in a built up area and there are no speed limit signs you should assume the limit is 30mph.

<td>50</td>
<td>60</td>
</tr>
</tbody>
</table>

* If not articulated or towing the maximum speed limit is 70mph.

ALL SPEEDS SHOWN IN MILES PER HOUR
‘Helping communities to help themselves’

What is it?
The Parish Link initiative has been set up by the Lincolnshire Road Safety Partnership to help Parish Councils who have concerns about traffic speeds in their communities.

The scheme incorporates the use of a Speed Indicating Device and is operated by local councillors or volunteers. As well as displaying the speed of vehicles as they approach the sign, they will also deliver an appropriate message to drivers who are exceeding the speed limit.

Parish Link is just one of the many initiatives that the Lincolnshire Road Safety Partnership employs to help reduce the number of people being killed and injured on our roads.

Who can use it?
Any Parish Council in Lincolnshire who have expressed concerns about speeding vehicles through 30mph and 40mph limits in their village can take part in this initiative.

It will provide them with FREE access to the portable signs, which are easy to use and specially designed to provide feedback to drivers about their speed.

How can we get involved?
If you are a Parish Council, concerned about speeding traffic through your village please contact:

Brian Burns, Parish Link Coordinator
Lincolnshire Road Safety Partnership, Witham House
The Pelham Centre, Canwick Road
Lincoln LN5 8HE
